5. After completing the Day 2 activities, view your SSL certificate and answer the following questions:

   a. Is your browser returning an error for your SSL certificate? Why or why not?

   ```
   It Didn't return a error because it is hosted in Azure which they have
   provided a certificate which is verified by a CA
   ```

   b. What is the validity of your certificate (date range)?

   ```
   Friday 10th march 2023 - monday 4th of march 2024
   ```

   c. Do you have an intermediate certificate? If so, what is it?

   ```
   Yes its the one issued by Azure
   ```

   d. Do you have a root certificate? If so, what is it?

   ```
   Yes
   ```

   e. Does your browser have the root certificate in its root store?

   ```
   Yes
   ```

   f. List one other root CA in your browser's root store.

   ```
   Digicert global root
   ```
